## WELCOME

*A message from our founder*

I hope that you are as enthusiastic about starting this journey as I am about helping you! As long as you're committed to health and are willing to try new things, I can promise that you'll come out of this feeling better than ever!

Juice Therapy is how I overcame my own health crisis. Back then, I often wondered why my body was failing me. It took me a few years to finally understand that my feelings of illness were only the symptoms. The real problem came from my "modern" lifestyle.

Juice Therapy removed the toxins from my system and helped me feel amazing. It is the healthiest and most complete form of detoxification. The juice is both natural and cleansing. Let this be your path to health.

Here's to your success,

Kimba Fonte-Tule, MSHH, NM  
 Founder of the Whole Body Vibe Studio
