

Adding Google Maps to Newswire

1. Get Google Maps HTML code

Go to the page where you can find the Google Map and see the page source.

The screenshot displays the Bayview Villa website. At the top left is the logo for Bayview Villa, Assisted Living & Memory Care, featuring a house illustration. To the right of the logo is the phone number (650) 466-7714 and social media icons for Twitter, Facebook, Google+, LinkedIn, RSS, and Email. Below these is a notification that "Chat Support is Offline". A navigation bar contains links for HOME, SENIOR CARE SERVICES, OUR COMMUNITY, ABOUT US, TESTIMONIALS, ELDER CARE RESOURCES, and CONTACT US.

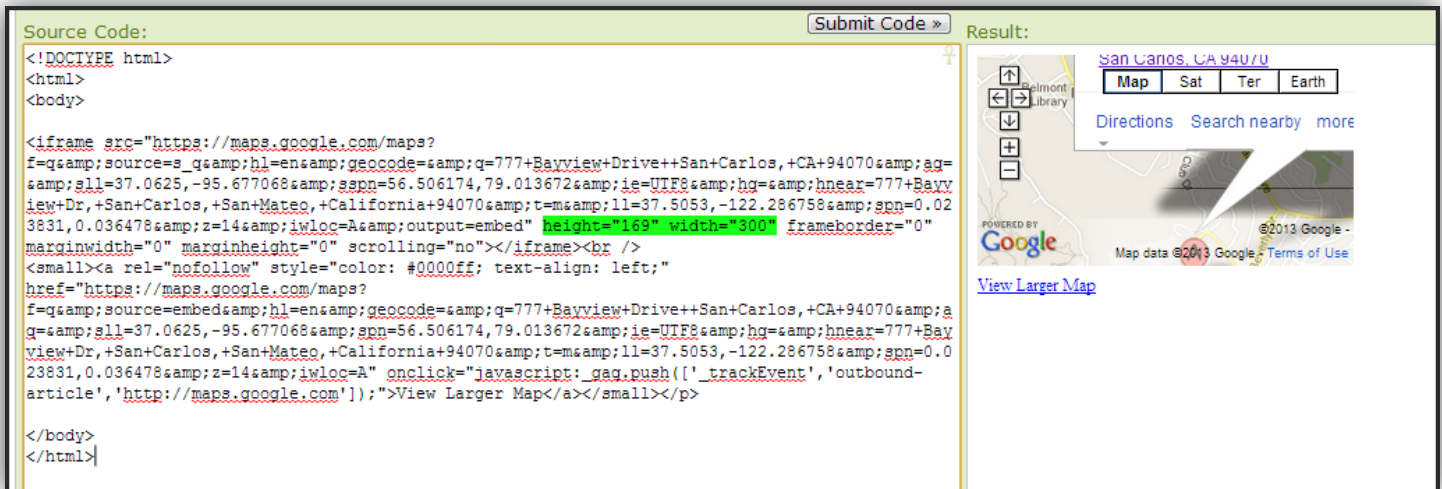

The main content area is divided into two columns. The left column is titled "Contact Us" and contains a form with the following fields: "Your Name (required)", "Your Email (required)", "Subject", "Phone Number", and "Your Message". A "Send" button is located at the bottom of the form. The right column displays contact information for Bayview Villa: "777 Bayview Drive", "San Carlos, CA 94070", "Phone: (650) 466-7714", "Fax: (650) 596-3773", and "License Number: 415600222".

Below the contact information is a Google Map showing the location of Bayview Villa. A red pin is placed on the map, and a context menu is open over it. A red arrow points from the text "Right-click and View page source" to the "View page source" option in the context menu. The context menu also includes options like "Back", "Forward", "Reload", "Save as...", "Print...", "Translate to English", "View page info", "Evernote Web Clipper", "LastPass", and "Inspect element".

At the bottom of the page is a dark footer with four navigation links: "Navigation", "Contact Us", "From The Blog", and "Upcoming Events".

Copy the code and validate via W3Schools.com. I changed the dimensions to `height="169" width="300"` to match the dimensions of the embedded videos.

Make sure that the correct dimensions are set for the Google Maps.

Add other embed codes; you can organize them according to your preference. In this post, I added the Google Map on top for emphasis.

Upload Video:

Embed Video or Flash from 3rd Party Site (YouTube, Vimeo, etc):

Assisted Living Community

Assisted Living Community Happy News: Mediterranean Chef Brightens the Lives and Palettes of Aging Seniors with His Fresh and Locally Famous Cuisine at Bayview Villa Assisted Living Community

(Newsire.net -- February 15, 2013) San Carlos, CA – Bayview Villa has set the standard for assisted living & memory care, and now dining services as they announced the addition of Mr. Mirko Skifich to its culinary team. Mirko now leads the dining program at Bayview Villa and brings over 40-years of culinary expertise to his new role. Mirko

formerly worked at Luigi's Restaurant of famed North Beach, San Francisco where he cultivated a regular following with some locally famed dishes. His passion for cooking, use of fresh ingredients and authentic Mediterranean roots will bring much joy to the senior residents of Bayview Villa and simply raise dining service standards within assisted living communities.

"We love eating and we do it well," said a smiling Mirko, of the dining services team at Bayview Villa. His team brainstorms daily on how to ensure that all meals incorporate the major food groups and uses fresh, organic ingredients whenever possible. It is important to the owner's and staff of Bayview Villa to provide their residents with not only the best care, but the best quality of life and that includes delicious, satisfying meals.

"Good health starts with good food," Mirko said.

He invited families and the public to call Bayview Villa at ☎ 650-466-7714, make a reservation and enjoy a plate of his famous lasagna, BBQ'd pork spareribs or fresh butter pecan salad with cranberries and balsamic vinaigrette. The residents of Bayview Villa love spending time with family and friends, especially when that time is spent enjoying a restaurant quality meal in the comfort of their home.

"Mirko is family," said Violet Loncar, Bayview Villa's owner and operator. "At Bayview Villa residents and staff are the heart of our community." Violet's devotion to the care of seniors and providing a community that anyone would be proud to call "home" has always included high quality products and services. Dining services and food at Bayview Villa have always been good and something to be proud of, but now they have the opportunity of truly being memorable for residents, their family and friends.

Bayview Villa Assisted Living of San Carlos, is family-owned and specializes in supportive, assisted living, memory care and behavioral health support. Bayview Villa provides those who live here with independence, safety, meaning-based entertainment, life enriching activity, transportation, tasty meals and much more. Our cozy-residence sits on a beautiful, Mediterranean-style villa property, and is set amid the elegant backdrop of the San Carlos hills. Assisted living residents come from all over San Francisco and the Bay Area. (Additionally, we share an interesting and storied Hollywood Past. It was once an estate and a home of renowned starlet, Yvonne de Carlo, the famed, 1940s Hollywood actress who's roles included film *Ten Commandments* and the television series *The Munsters*. Neighbors once included John Wayne and others).
